

Some Things to Think About

Jesus' DNA

By Diana Mitchell, 12/11/2021, 8/24/2026

Neither Joseph nor Mary supplied any of Jesus' DNA, but he supplied all of their DNA. Let's not forget that GOD stayed true to his own physical laws when he made Jesus, who knew no sin (2 Corinthians 5:21). A physical egg needs a physical sperm to develop into what will become a physical human-in-being. Joseph did not supply that to Mary, and GOD had no "natural" children on this earth. The only son that GOD begot, as told to us in John 3:16, was not produced by human vessels, but both of them were willing to serve GOD and parent JESUS (Matthew 1:18-25; Luke 1:26-38).
